Clausen has, among other good things of this world, two pretty and smart grown daughters, Annie and May. They are very light-hearted and merry young girls, and they have a young friend just like them, Sadie Dunn, of Williamsburg. Badie comes over to see them once in a while, and rooms with Annie overnight on these visits.

Two nights after Willie's arrival, Sadie was over and with Annie and May and other young people were having a good time in the "True Blue Room," a pretty blue chamber behaind the saloon, where both ladies and "gents" may have a blis and a drop in seclusion. Willie came in and instantly demanded an introduction to Sadie.

The courtesy was granted, and after and instantly demanded and farried that she was heart whole and fancy free, and then declared his intention to marry bar just as soon as he got his inheritance, which would likely be the next week. Willie was always swift, direct and drawatic in all his methods.

Badie kept coming over a little more frequently and staying two and three days at a time. She "kind o' liked him," she said, and a fellow with \$30,000 ian't always easy to get.

"That's just the way Sadie looked at

"He most surely could lie a lot," indorsed May, "But he was clever, too,"

'Indeed, he was." assented Annie. "He bragged around here that he could do most anything under the sun, and we tried to call him down. He said he could play the violin, and we got one for him, and he played it. He said he could rice a bicycle. We stuck him upon one and he rode it. He said he could talk Chinee. We took him down to a laundry, and he had a long confab with the Chinaman."

"Oh, he was a bird!" chimed in May.
"He was desperately gone on Sadie.

"You bet she did," interrupted May.
"She told him, 'You get the dough and
I'll marry you. No dough, no marry.

Some of Willie's amorous antics during

Some of Willie's amorous antics during these halcyon days seem to bear out the opinion of the girls that he was not eltogether responsible. He repeatedly threatened to shoot himself.

The Claussen girls at these times amused themselves by handling him an old unloaded pistol and advising him to go out and perform the happy despatch, but not to die in the house. Once when particularly wounded by Sadie's heartlessness he sat down and drew up his last will and testament, which he gave to Claussen's son, Charley. Here is the instrument:

Meanwhile he hung around Claussen's saloon buying drinks for himself on time and promising all the frequenters of the place, who thought him a very eccentric but open-hearted young fellow, all sorts of good times when he got his money.

The situation finally narrow down to a point when he had to make some show of his financial boasts. Last Sunday Sadie told him to get his money or suspend his suit. He left the house and came back in an hour with a check for \$25,000 drawn in a school-boy hand, on the Southern National Bank, payable to himself and signed with the name of

the Southern National Bank, payable to himself, and signed with the name of Jas. E. Hahn.

Willie explained that Hahn was his lawyer and that was the check for his inheritance, it having cost \$5,000 to settle the estate.

The wedding was arranged for last Tuesday evening, Aug. 2. Willie was galety itself and said that he would take the Claussen boys and girls with him on his bridal trip to the Ctaskills. Sadle was willing and made preparations. It was to be a plain wedding in travelling costume, followed by a little supper and music at Claussen's.

Thursday morning Willie handed his precious check to Mr. Claussen for safe-keeping, and borrowed \$5, which completed a total debt to the old gratieman of \$57. He went to the Hamilton National Bank and entered his signature as a prospective depositor. Then he called upon Father Coogan, on One Hundred and Eighteenth street, a and got his promise to perform the ceremony. He went to a neighboring restaurant and ordered a dinner. He hired a band of
